

# PEEK AND PVDF ONE-PIECE FINGER TIGHT FITTINGS - COLOR-CODED

- PEEK : Finger tight up to 350 bar (5000 psi)
- PVDF : Finger tight to 180 bar (2600 psi)
- Excellent chemical and mechanical properties
- One-piece – no ferrule required
- Bio compatible

Our PEEK finger tight fittings are available in six colours, for easy identification of tubing lines. They are rated to 350 bar (5000 psi) and can be used in virtually any type of 10-32 thread HPLC fitting detail on the market. PVDF fittings are chemically inert, and suitable for medium pressure applications. They will not constrict soft polymeric tubing as PEEK finger tight fittings sometimes do.
